

Health Requirement Checklist available here: stcc.edu/healthservices

Non-Health Programs

The following records of immunity are required of full-time [12 or more credits] students who are less than 30 years of age. This form lists the required health records, pursuant to Mass. General Laws Ch. 76, § 15C and 105 Code of Massachusetts Regulations 220.600.

Students enrolled in programs with fieldwork should not use this checklist. Those lists are available here: stcc.edu/healthservices > **Health Forms>Programs with Fieldwork**

Submitting Documentation

Health records must include full name and date of birth. Lab records must also include the date of test, reference range, and result(s).

Required Prior to 1st day of classes:

- Tetanus, Diphtheria, and Pertussis (TDaP)** – evidence of vaccination within the past 10 years
- Measles, Mumps, Rubella (MMR)** – evidence of 2 dose vaccine series (or titer results showing immunity for each component if no vaccine record)
- Hepatitis B** – evidence of 3-dose vaccine series (or 2-dose if HEPLISAV-B™) OR Surface antiBOD_Y titer blood test (anti-HBs) showing immunity
- Varicella (“chickenpox”)** – evidence of 2 dose vaccine series OR titer result showing immunity OR documented history of disease
- Meningitis** – For students under age 22, 1 dose MenACWY (formerly MCV4) administered on/after 16th birthday; OR Meningitis Waiver at tinyurl.com/y6svra7b

Students taking online courses with no chance of being on campus, are not required to submit the above immunization records. However, if these students come to campus for any reason, proof of immunization is required.

Understanding titer results

Positive/Reactive means you have immunity. There is no date limit just submit the record.

Negative/indeterminate/equivocal means you are not immune.

1. Submit lab report
2. Have vaccine(s) administered and submit documentation
