## Zoya Plunkett-Brown

I'm an easy-going and fun-loving person who enjoys bringing joy and laughter to others. In my spare time, I like playing soccer, exploring nature, and venturing to new places. I grew up in Jamaica and spent 15 years of my life there, which is something I'm really proud of. One fun fact about me is that I can play a musical instrument.

### Why did you choose to join Student Government?

I joined Student Government because I am passionate about creating a positive change within my community. I want to be part of a team that not only recognizes the challenges my peers face but one where we can actively advocate for the needs of our student body and work towards meaningful improvements. Student government will provide me with opportunities to give back to my school community and contribute to enhancing the college experience for my peers.
